1964

YEAR BOOK of RADIO and TELEVISION

What happens in the halls of Congress, and elsewhere in the nation's capital, vitally influences local community life, very often as directly and immediately as the workings of municipal government. For this reason, the five CBS Owned television stations—Channel 2 in New York, Los Angeles, Chicago; Channel 10 in Philadelphia and Channel 4 in St. Louis—have established their own Washington News Bureau. To bring the citizens of five major population centers direct news reports of the latest happenings on the Washington scene which specifically relate to their communities.

The Washington News Bureau, with its full-time sight-and-sound facilities ready to capture important news on-the-spot, is the latest example of the CBS Owned television stations' continued pioneering of new ways to expand the dimensions of local television. And thus to provide better, more meaningful service to five major U. S. communities.

CBS TELEVISION STATIONS A DIVISION OF COLUMBIA BROADCASTING SYSTEM, INC., OPERATING WCBS-TV NEW YORK, KNXT LOS ANGELES, WBBM-TV CHICAGO, WCAU-TV PHILADELPHIA AND KMOX-TV ST. LOUIS.

Foreword

TWENTY-SEVEN YEARS is a long time in broadcasting—and, after 27 years, it would seem impossible to find some new thought to key this foreword to the YEARBOOK OF RADIO AND TELEVISION. Yet, the executive who directs the destiny of one of the leading broadcasting companies supplied one in discussing the industry's standard reference volume: "I like to call it my million-dollar treasury of facts," he observed, adding: "I may be a little low in the evaluation by a million or two."

HE EXPLAINED that if the YEARBOOK were nonexistent, the industry would find it necessary to create it. The cost of research and compilation spanning 27 years would soar into seven figures.

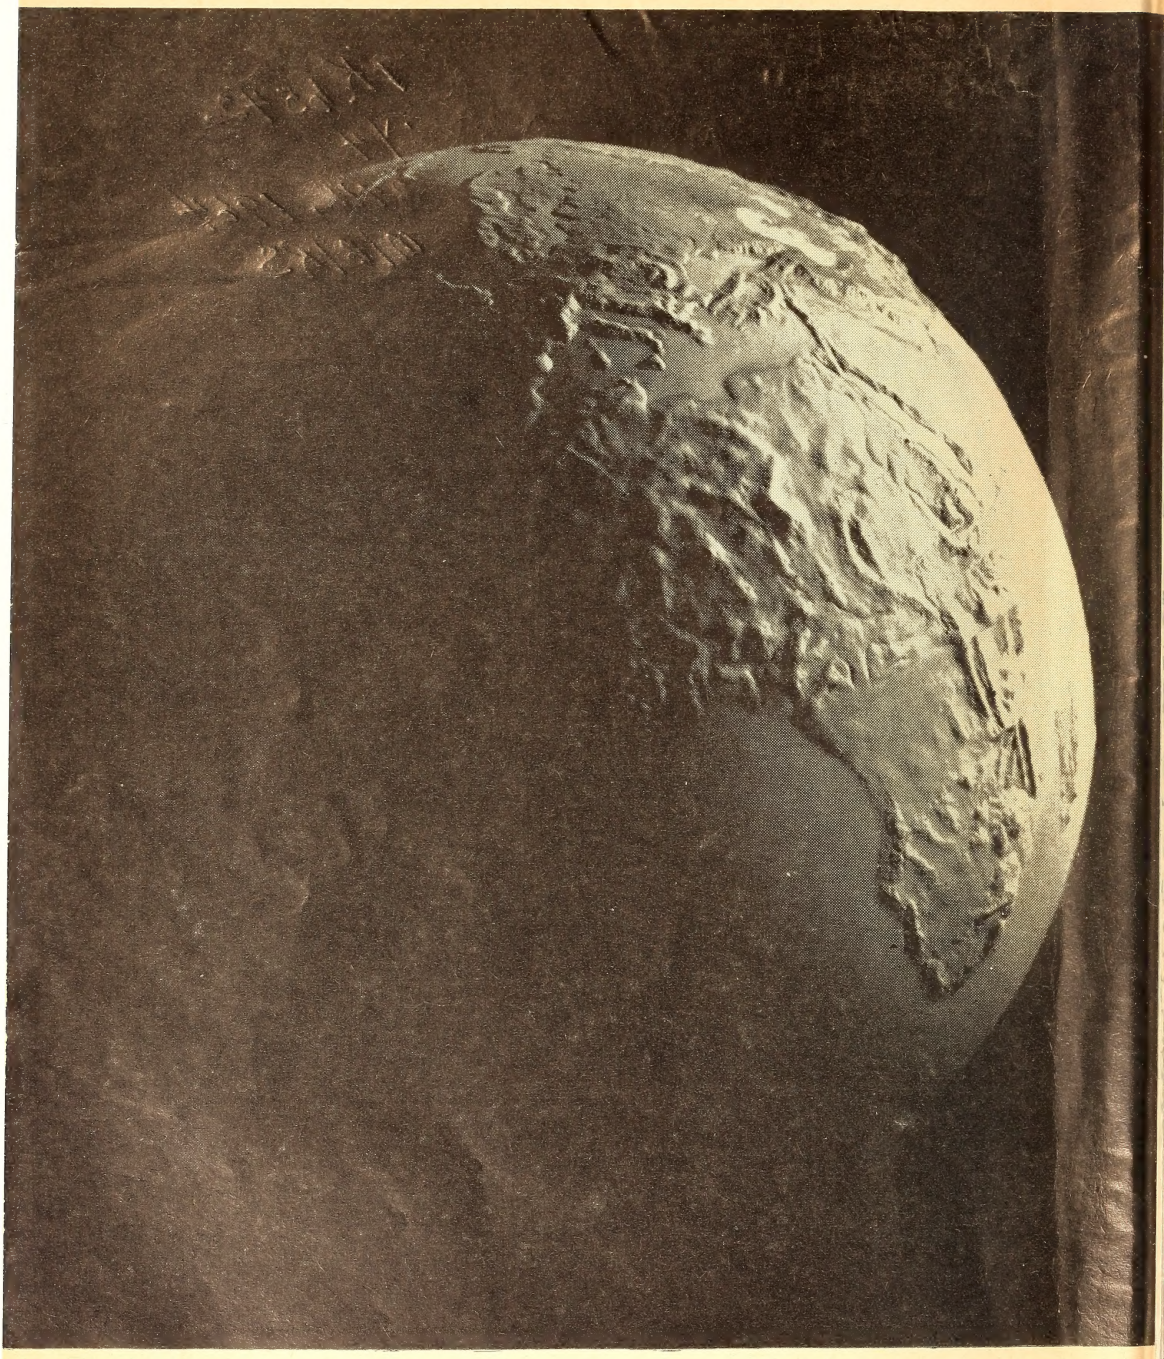
THIS MUCH we who work on the YEARBOOK—day in, day out—do know: It is in many respects the distillation of more than two decades of earlier endeavor, not to mention publishing experience.

THUS, there is no substitute and there never can be one.

TO ALL those whose unstinting efforts are represented in this 27th edition go our deep appreciation and thanks for a job well done.

CHAS. A. ALICOATE
Editor-in-Chief

How to tell all sides of this story in '64...



News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

AP

the "watchword" for reliable service

Minerva

America's largest selection

PRECISION TIMING INSTRUMENTS

FOR RADIO TV • FILMS

Official Timers
CBS — NBC — ABC Networks

Electronically tested

Scientifically proven accurate

Exclusive, Non-breakable, "Coil Spring" Mechanism for Economy, Dependability, Unexcelled Accuracy. The result of 20 years of engineering research, Minerva "coil" construction assures endless timing precision with less wear or friction . . . without need of costly adjustments or repairs . . . under rugged continuous usage.

Lifetime Guarantee. Coils employed in Minerva Mechanisms are unconditionally guaranteed for the life-span of the timer against breakage or wear. In addition, should any Minerva timer fail to give satisfaction within one year because of defective material or workmanship, the timer will be completely repaired or replaced without charge.

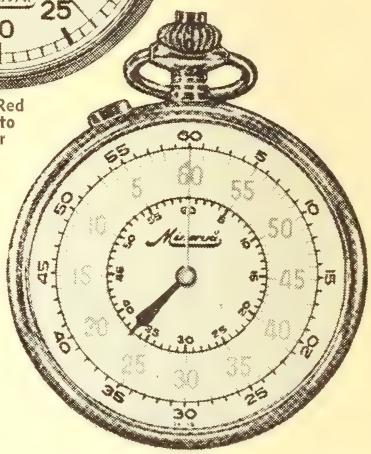
10-Days Free Trial. Select any Minerva timing instrument and try it under your own working conditions for a full ten days. If it does not serve your purposes as well or better than any other instrument, simply return it. There will be no charge, no obligation.

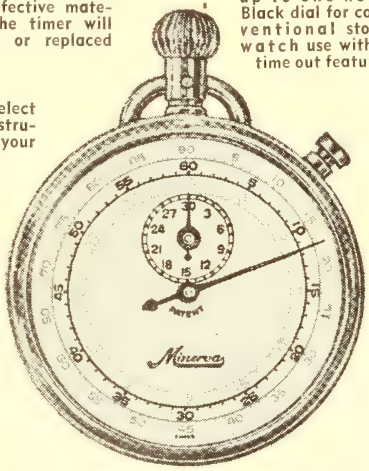
We are headquarters for stop watch repairs & servicing — all makes — prompt service

Models 105PN—107N

Full minute span with more definition on the minutes! Single dial reference for both minutes and seconds retains the mechanics familiar to Radio and TV but this Minerva timer is **much easier to read and use.** For spot timing, timing program segments, etc. Two models with alternate methods of Start-Stop-Start . . . flyback to zero.

Model 222
For "On the Air"! Red dial gives "time left to go" without written or mental calculations—sweep hand in seconds, small hand in minutes. Easily set for any time period up to one hour. Black dial for conventional stop-watch use with time out feature.





Models 106F—106

For Film-making, Filmmeter and Fifth-Second Timer! This specially designed timer has regular fifth-second scale, plus 90-ft and 36-ft per min. scales to register footage for 35mm. and 16 mm. film. Long hand completes one revolution in 60 seconds, small hand registers up to 30 minutes. Time out feature. Perfect flyback guaranteed for life. Model 106 has fifth-second scale only. Both available in regular or large size.

Write, Dept. RAY, RIGHT NOW for complete catalog.

SPOT GW

SELLING POWER

The television stations represented by PGW spend more than 26,000,000 hours every day in the homes of American families who buy what you sell. THAT IS SELLING POWER!

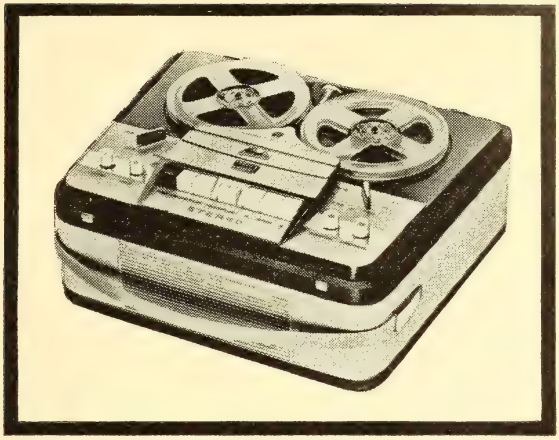
This Norelco Tape Recorder makes sidewalk interviews easy...



this one provides top fidelity stereo/mono studio or location recording and broadcasting

On the left is the new, 7-pound, battery-operated Continental '101'—specifically designed for fast, on-the-go, quality recording and playback. Provides up to 2 hours on one 4" reel. Reels are on top—you record while wearing the '101' over the shoulder (convenient leather carrying case available as optional accessory). Completely self-contained with dynamic cardioid microphone for distant pickup, wide-range Norelco speaker, and patch cord for playback through external equipment. Constant-speed motor with capstan drive. 100% transistorized. Guild-crafted by Philips of the Netherlands. For sidewalk interviews, eyewitness reports and live background sound—anytime, anywhere—it's the new Continental '101'

Above is the magnificent Continental '401'—new, improved version of the famous Norelco 4-track stereo/mono recorder. 100% transistorized. Four speeds include the new, super-slow 15/16 i.p.s., providing up to 32 hours recording on a 7" reel. Completely self-contained with dual record/playback preamplifiers, dual power amplifiers, 2 speakers and stereo dynamic microphone.

To see and hear how these Norelco Continental Tape Recorders can handle your daily reportorial assignments or location and studio recording and broadcast sessions, contact your dealers in quality high fidelity components, or write: North American Philips Company, Inc., *High Fidelity Products Division,* 100 East 42nd St., N. Y., N. Y. 10017

CHICAGO • LOS ANGELES • NASHVILLE • TORONTO • MONTREAL

Revenues, Expenses & Income Of Radio & TV Networks & Stations*

The radio (AM and FM) and television broadcasting industry for the first time reported annual revenues in excess of $2 billion. The figure of $2,122.1 million for calendar year 1962 represented an increase of 11.2 per cent (or $213.1 million) above 1961 revenues of $1,909.0 million. Industry profits (before Federal income tax) were up one-third from 1961 to $355.1 million.

Broadcast revenues in radio hit a new high—$636.1 million, up 7.7 per cent from 1961. Before-tax profits in radio of $43.5 million showed a very substantial increase from 1961 (48 percent).

The 19 network owned and operated stations and the nation's 3,679 other AM and AM-FM stations showed a much more favorable profit picture in 1962 than in 1961. In both groups expenses increased substantially less than revenues, resulting in profit increases of about 40 per cent. Although the four nationwide radio networks reported a slight increase in network revenues, the networking operation continued to show a loss.

(In Millions of Dollars)

— 1961-1962 —

Service	*1962 ($ millions)*	*1961 ($ millions)*	*Percent Change 1961-62*

'63 Communications Highlights — Satellites, Ads, JFK Coverage

By
E. WILLIAM HENRY
Chairman
Federal Communications Commission

IN the field of communications, the year 1963 was one of considerable activity and accomplishment.

Major advancements in our national program to establish an operable international communications system using space satellites was the most significant development of the year. Of critical importance was the action of the Extraordinary Administrative Radio Conference in Geneva, at which member nations of the International Telecommunication Union jointly recognized the benefits which can flow from such a system, and set aside frequencies essential to the success of the program.

In addition, the Communications Satellite Corp., which will own and operate the American portion of the system, is actively engaged in working out the technological requirements and the international arrangements to establish early interim operation. Continued experiments with Telstar, Relay and Syncom hold forth the promise that space satellites, in the next few years, can provide reliable and economic communications to supplement radio and cable facilities.

In the area of domestic broadcasting, we note with particular pleasure the stepped-up activity in educational television. Over 80 educational TV stations were on the air at the year's end and, aided by the Federal grant-in-aid program and the all-channel receiver legislation, we anticipate continuing and substantial growth in this service in the year ahead.

During the year past the Commission has also examined the question of the amount of time devoted to commercials, has moved to clairfy broadcasters' responsibilities to their local communities in the fair treatment of controversial topics of public importance, has imposed a modest filing fee on most applications to offset, in part, the regulatory expenses of the agency, and has continued its efforts to foster and promte the use of all 82 TV channels.

In its continuing effort to make broadcasters live up to their promises and obligations, the Commission reminded licensees of their responsibilities under the 1949 fairness doctrine and explained the applicability of the sponsorship identification of a 1960 law.

The magnitude of nonbroadcast radio operations in this country is manifested by the fact that the FCC now has more than 1.2 million radio station licensees who operate over 4 million transmitters. These stations aid in police and fire protection and other state and local government activities; direct the movement of vehicles on land and water and in the air; assist manufacturing and other business operations; speed the delivery of our products and services; summon doctors and ambulances; help conserve our forests; gather and relay news, and perform vital functions to bulwark the national defense.

The assassination of President Kennedy and its aftermath kept a sorrowing nation watching and listening to broadcasts as never before. For more than three days, networks and stations across the country voluntarily abandoned regular programming to give constant coverage of the tragic events, for which they received the highest official and public plaudits. Some of this reporting was relayed to other mourning countries by satellite and the new transpacific cable.

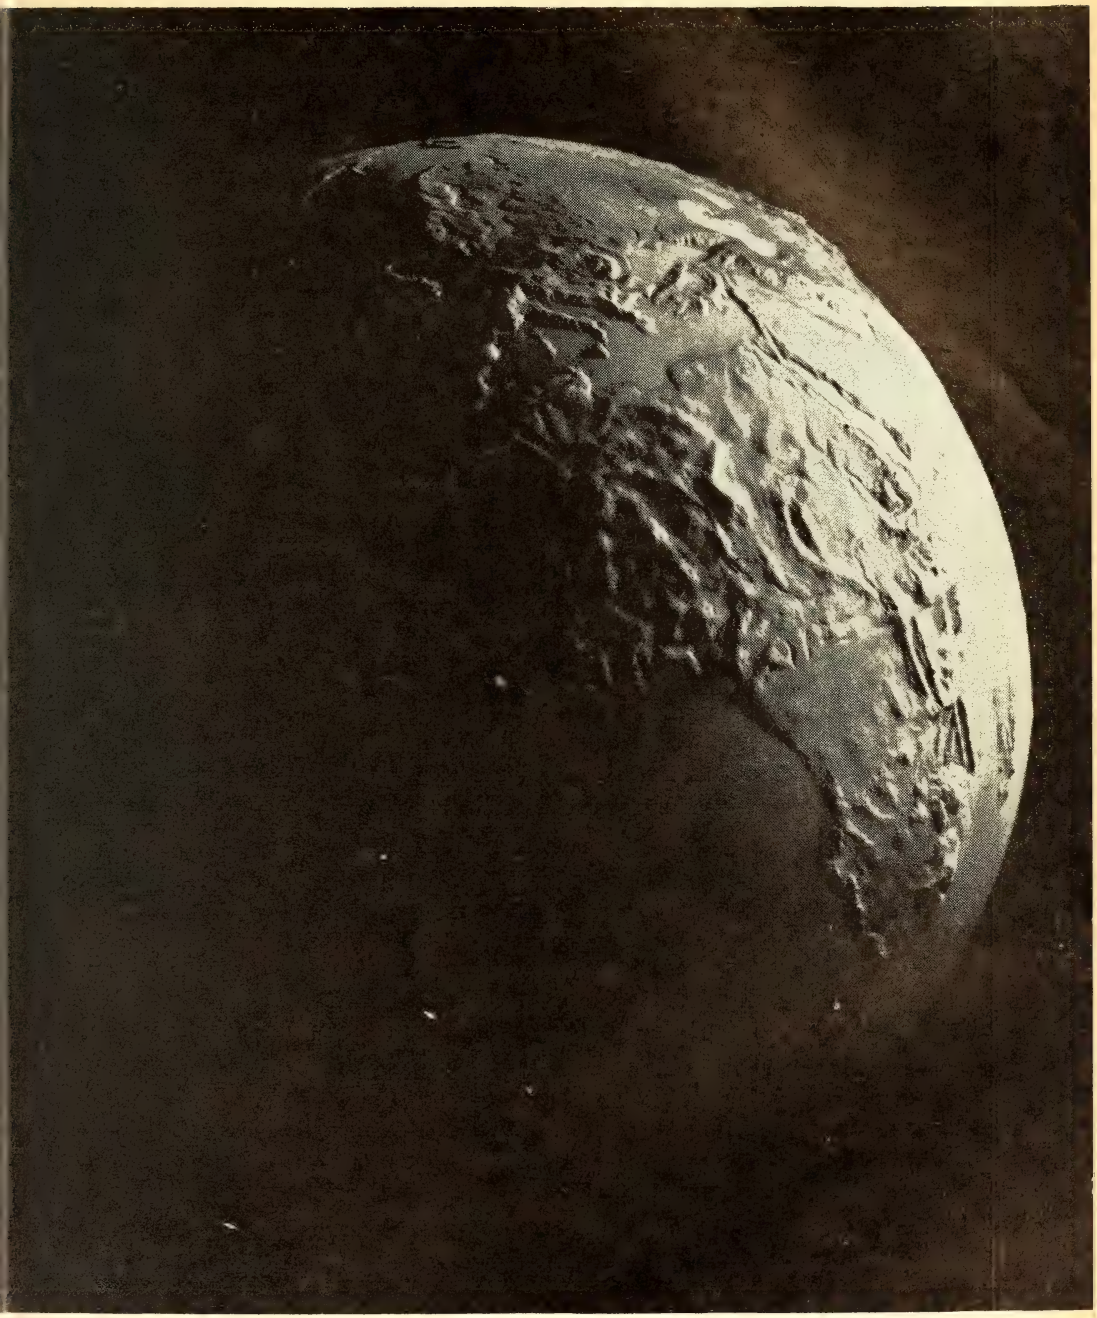
RADIO-TELEVISION DAILY

IS THE ONLY DAILY NEWSPAPER

IN THE BROADCASTING INDUSTRY.

How to tell all sides of this story in '64...



News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

AP

THE ASSOCIATED PRESS

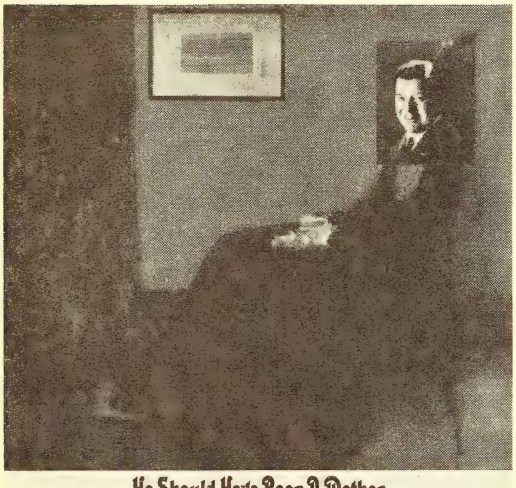
The advertisers



He Should Have Been A Mother

When Godfrey says eat, people eat.

"Only 20 weeks after Arthur Godfrey started advertising Morton House canned foods," says Mr. Lonnie V. Merrill, Vice President of Marketing, "our sales volume has increased 56.9%, and much of this increase we attribute to the splendid job that Godfrey is doing."

How does he do it? It's true, Godfrey has a way of describing food that makes your mouth water. But that's not all of it. The secret is that people trust Godfrey like a mother. When he says, "Try it. It's good," they do. And it is good. So sales go up.

If you have a good product, there's no one who can get people to eat it up like Arthur Godfrey. Try him. He's good.

What's cooking with Ac'cent?

Today, more chicken, more fish, mo
lamb chops, more everything. a
cooking with Ac'cent" than ever. Th
reason? Since 1961, Ac'cent has bee
cooking almost exclusively with radio

As Ac'cent's basic advertising me
dium, radio has more than kept th
pot boiling. John Q. Hertzog, Genera
Sales Manager of Ac'cent Interna
tional says, "It has continuously gre
erated increased consumer awareness
and sales."

Here's the Ac'cent recipe.

In '61, they bought four weeks
the CBS Radio Network—a volum
plan that included Dimension
tures and news. In '62, they trigle
their '61 buy. And in '63, they m
then tripled their '62 buy!

The current buy—a 52 week cam
paign—will keep Ac'cent on the CB
Radio Network through June of 196
"CBS Radio," to quote Mr. Hertz
again, "has played a vital role in co
tributing to Ac'cent's dramatic sal
progress." So Ac'cent International
is taking no chances. They've mad
sure of their '64 time on CBS Radi

This V-8 runs better on air.

...The kind of sales-producing air provided by the CBS Radio Network.

V-8 was, and is, one of the fastest selling canned juices in grocery stores today.

But research confirmed that V-8 wasn't always foremost in the minds of shoppers faced with hundreds of other kinds of appetizing foods.

Campbell Soup concluded that the way to greatest growth was to keep reminding its many fans about V-8. And the oftener the better.

A creative approach was developed which seemed most effective when projected via radio.

And so Campbell turned to radio for this campaign—radio exclusively.

The effects were dramatic. In one key test market, advertising awareness of V-8 jumped from 36% to 55% in just four weeks. Sales increases followed immediately.

Happily, this pattern repeated itself across the nation. And, happily, CBS Radio and V-8 have been on this beam for two years.

Because it runs better on air, V-8 is continuing on CBS Radio in 1964. Perhaps air is just what your product needs, too. The sales-producing air on

A Big Fish Story

This isn't a fable about a chicken. It's a true story about a fish. Its name is Breast-O'-Chicken tuna.

It all started last spring when sales of Breast-O'-Chicken (and other canned tunas) slumped badly. To turn the tide, the Westgate-California Corporation bought one 10-minute segment a week in "Arthur Godfrey Time." Just one a week... and it was the only national advertising for this product in 1963.

Arthur Godfrey started talking about Breast-O'-Chicken tuna on May 28th. Here's what happened—in the words of Milton E. Fillius, Jr., Executive Vice President. "I am pleased to report that business is looking very good indeed... August and September showed an 80 to 100% improvement in share of market over the same period in 1962. We have concluded (and reports from the field bear it out) that your efforts on our behalf are responsible for a very substantial amount of our improvement."

And that's not the end of the story. Breast-O'-Chicken tuna and Godfrey will be together all of next year.

If you have a good product that's getting lost in a sea of good products, speak to Arthur Godfrey. Whatever you sell, you'll probably have a Big Fish Story to tell—one that really happened.

THE CBS RADIO NETWORK

Fact. For two years now, our ads have come from the things our clients say about radio and the CBS Radio Network.

Things like "business is looking very good indeed"...and "increased consumer awareness" has been generated...and "sales volume has increased 56.9%"...and "our sales staff is enthusiastic"...and "dealer reaction has been overwhelming."

In a word, results. So don't buy the CBS Radio Network just because we urge you to. Buy it because it works, because it sells products. Sponsor after sponsor says so.

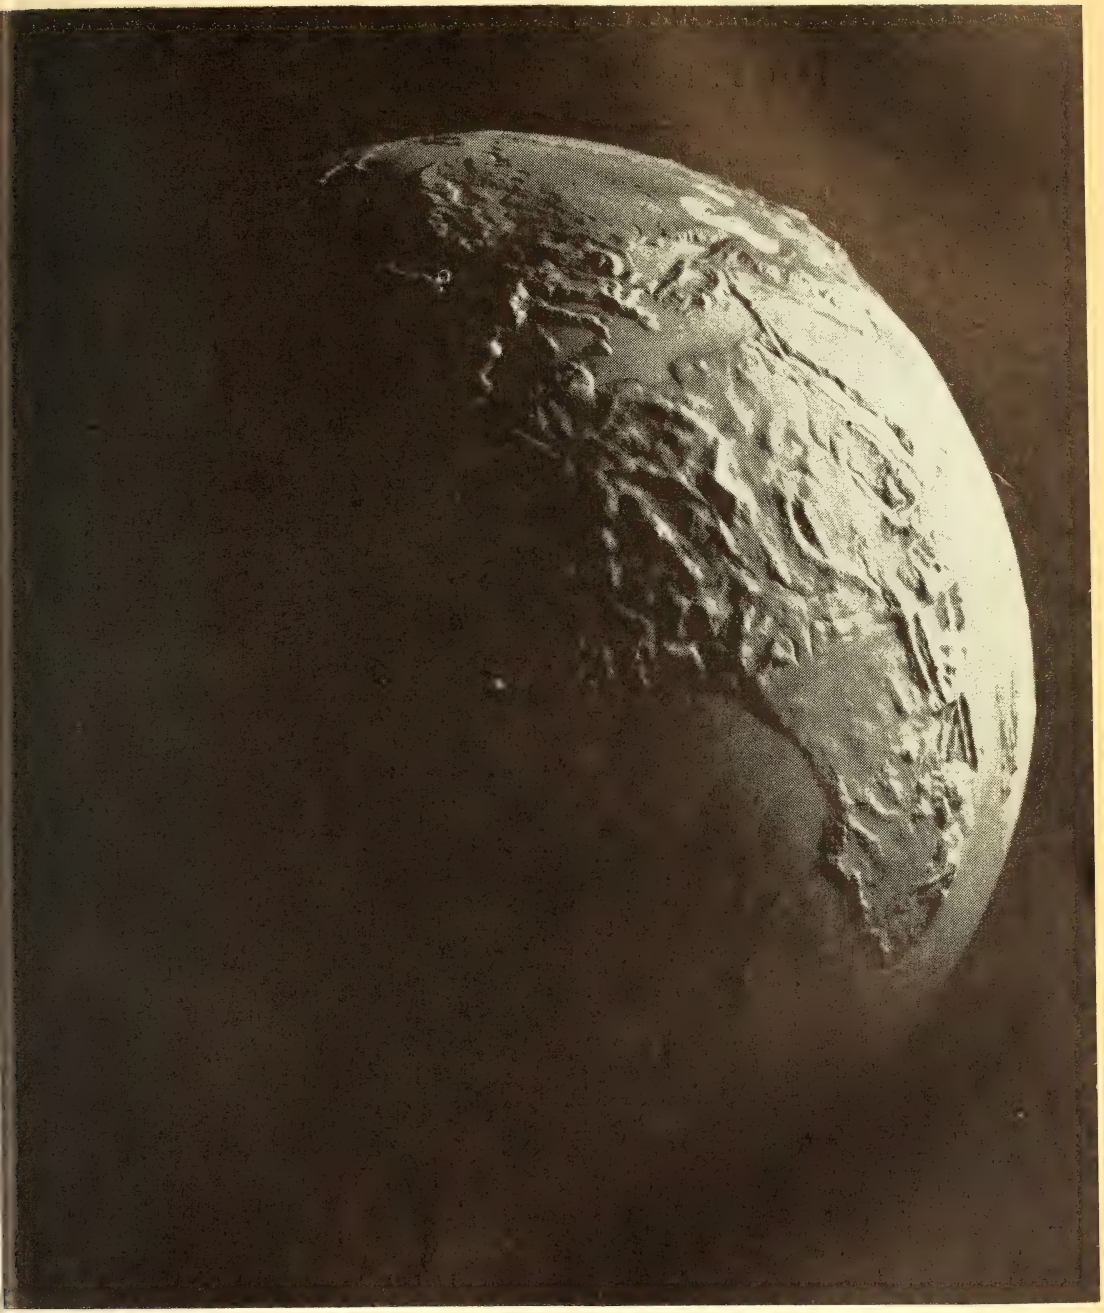
How to tell all sides of this story in '64...



News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

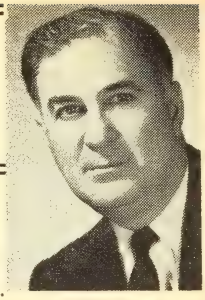
THE ASSOCIATED PRESS

Rural Listeners a Potential For National Ad Campaigns



By
SIDNEY J. WOLF
President
Keystone
Broadcasting System, Inc.

NATIONAL advertisers, as modern marketing intensifies, are departing more and more from the rigid type of marketing in the top markets exclusively. In the past, many of these national companies have confined their intensive sales efforts to the "top 25" or the top 100 markets, thereby bypassing vast areas of the U. S.

In today's hard-selling and highly competitive situations, branch managers and advertising executives of nationally distributed products, involving broad scope services, know that they need to reach into all markets where their products are available. They also know that they must expose their sales messages to audiences beyond the restrictive reach of the top markets only, if they are to obtain maximum sales results on a national basis. To implement this highly desirable goal, this means the utilization of radio in the 2,749 C & D Counties that comprise, both in terms of population and consumer power, well over one-third of the entire country. The essential coverage of these sales areas is precisely what our network is equipped to supply. KBS, with its 1180 affiliated stations, covers 40 percent of the population of the U. S. The main strength of our operation, however, lies in the C & D Counties where 19,099,490 out of a total of 51,155,100 radio homes in the U. S. are located. We serve on the "local level at the point of sale" 2,367 or 86 percent of all C & D Counties.

Keystone is an ideal means of tapping these profitable sales reservoirs, for the high incidence of listenership loyalty to the local rural and small town radio station has been established by numerous surveys, and also by the empirical experiences of advertisers themselves.

More and more, national advertisers are realizing the efficacy of radio in the C & D Counties. Take one striking example. Three and a half years ago, a leading national advertiser, the Rexall Drug Company, decided to buy KBS for a series of radio campaigns. Although we were severely restricted as to what areas we were permitted to service, we started off with 200 markets and, as of this writing, are scheduling regular campaigns on over 500 stations, hopeful of adding additional markets.

How did this national advertiser satisfy himself that we were doing an outstanding sales job for his company? With each campaign sponsored by the parent company, its distributors were invited to buy additional "tie-in" spots from our local outlets, for the duration of the campaign. The response was phenomenal. Not only were the distributors prepared to match the parent company's advertising dollars, expended on the local level, but also to outmatch them three to one. Thousands of additional "tie-in" spots are regularly reported by Keystone affiliates scheduling the parent company's sales campaigns.

What greater proof of the effectiveness of local radio can there be than the eagerness of local distributors to support the parent company's promotion on their local stations? They are on the spot; they know their own markets; they are paying for the additional "tie-in" spots out of their own pockets, and the local rates are comparable to those paid by the parent company for the national campaign. Isn't this surely the most reliable yardstick of local performance a national advertiser can have?

MAIN
MUTUAL
MUTUAL
MAIN

TO REACH MAIN STREET U.S.A., TURN AT MUTUAL—Swing along Mutual Street to get to Main Street U. S. A. And these are just some of the people you'll meet on the way... newscasters of note like: Whitney Bolton, George Hamilton Combs, Tony Marvin, Steve McCormick, Van Patrick, Del Sharbutt, Frank Singiser, Bill Stern, Westbrook Van Voorhis.

Remember, the road to market has to pass Main Street. Main Street U. S. A. is the big "buy-way"—the street that sells through local radio. Mutual owns Main Street U. S. A. lock, stock and big-town-with 500 listenable affiliates everywhere. If you want to sell where the buying is biggest, check the signpost and turn at Mutual. LANDMARK: Mutual delivers 97 of the top 100 Main Streets in America.

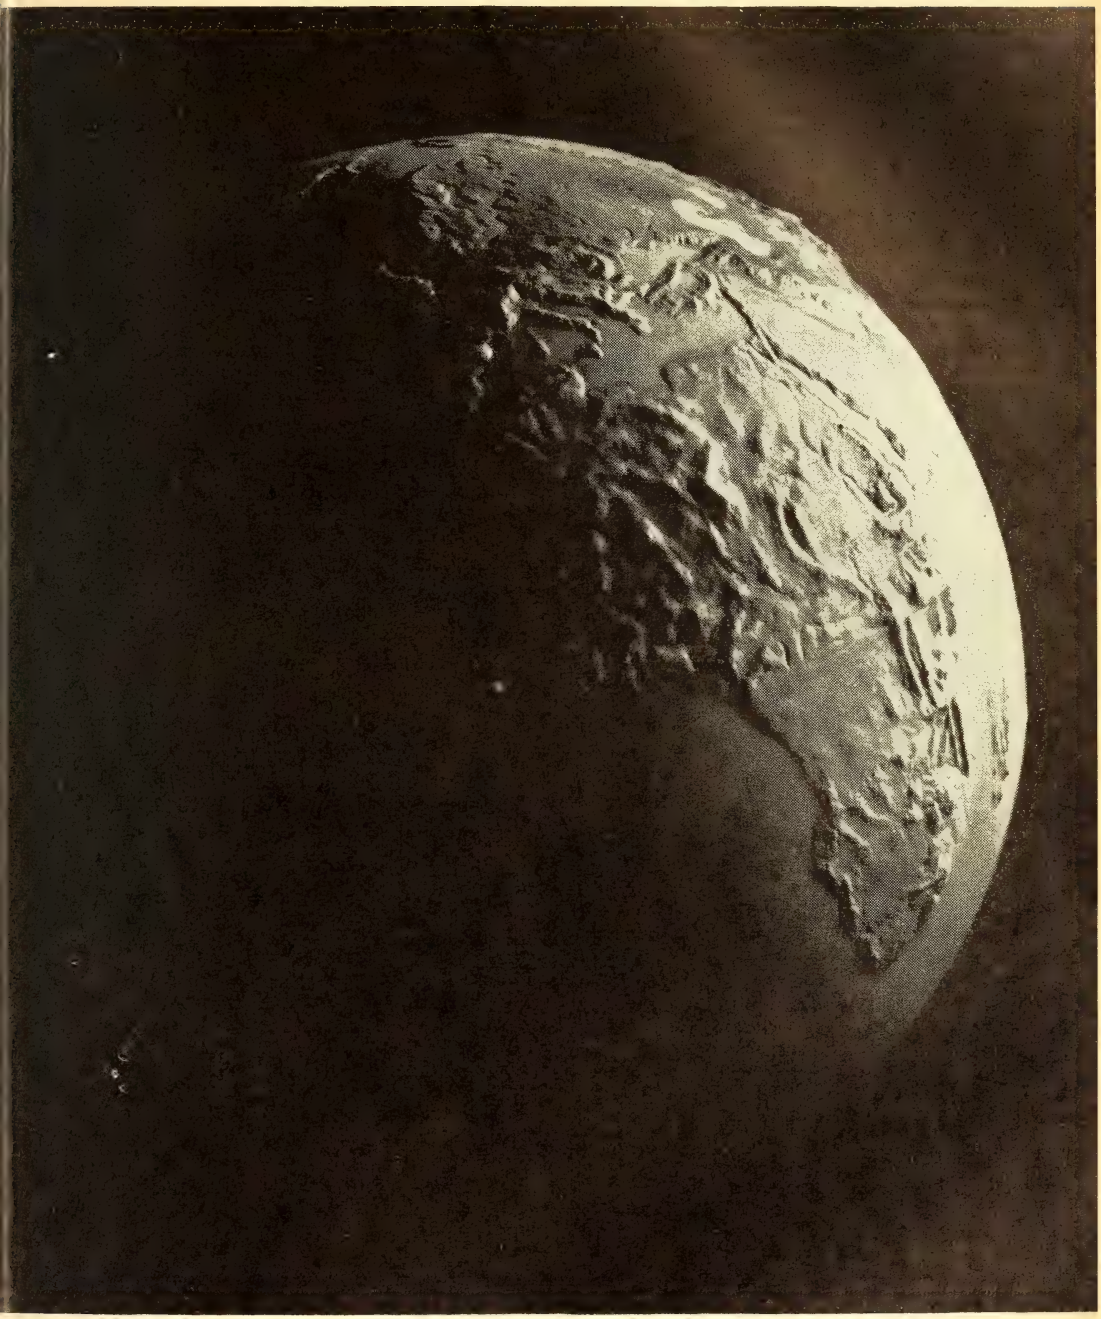
How to tell all sides of this story in '64...



News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

How to tell all sides of this story in '64...

News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

The personal touch... 300,000 new-car buyers in Illinois, Indiana, Michigan and Wisconsin are receiving personal cards of congratulation from WGN Radio. This is another promotion "first" for WGN... in Chicago...and the nation! These cards provide a unique personal touch—another important plus for WGN Radio's audience and advertisers. The personal touch is the key to listener—and brand—loyalty.

NEW YORK'S LARGEST ALL-DAY SPANISH STATION

ONLY WADO RADIO COVERS SPANISH NEW YORK, NEW JERSEY AND LOWER CONNECTICUT! 5:00 A.M. to 8:00 P.M.

You can't reach the entire Metropolitan Spanish-language market by covering Manhattan alone. Only WADO's powerful voice reaches out to New Jersey and lower Connecticut, where many Spanish-speaking people now live. WADO sells for you in Spanish all day long, 5:00 A.M. to 8:00 P.M., Monday through Saturday, 9:00 A.M. to 8:00 P.M. Sundays. Here are 15 hours a day, 101 hours a week of Spanish prime time programming, and a loyal audience of 1,300,000 listeners. To fully tap this 1 *billion-dollar market,* use the dynamic voice of WADO.

YOU CAN'T THINK COMMUNITY RADIO WITHOUT WLIB

It's the first station that comes to mind because it's the only station of its kind in the country.

WLIB is Negro Radio that lives up to the highest standards of Negro aspirations, offering everything that radio can offer to its Community — 7 days a week, 365 days a year.

Its very excellence has made it a kind of yardstick in the industry by which other stations are often measured.

This dedication has paid its advertisers well. Today, over 80% of its sponsors are national — a record, we believe, unequalled in its field.

Revenues, Expenses & Income Of All FM Radio Stations

(In Millions of Dollars)

— 1961-1962 —

Item	1962 Number of Stations	Amount	1961 Number of stations	Amount
		Total FM Broadcast Revenues		
FM stations operated by:				
AM licensees:				
Reporting no FM revenues	306	—	405	—
Reporting FM revenues	408	$4.6	284	$2.9
Non-AM licensees	279	9.3*	249	7.1
Total FM stations	993	$13.9	938	$10.0
		FM Broadcast Expenses		
FM stations operated by:				
Non-AM licensees	279	$12.5	249	$9.7
		FM Broadcast Income (before Federal income tax)		
FM stations operated by:				
Non-AM licensees	279	($3.2)	249	($2.6)

FM Stations Operated by Non-AM Licensees Reporting Profit & Loss

— 1958-1962 —

Year	Total Number Reporting	Number Reporting Profit	Number Reporting Loss
1962	279	71	208
1961	249	59	190
1960	218	50	168
1959	148	38	110
1958	93	25	68

( ) Denotes loss.

(*) Of this amount $1.4 million was reported as incidental broadcast revenues including revenues from providing functional music or other special services.

NOTE: In view of the difficulty in a joint AM-FM operation in allocating FM operation expense separately from AM station operation expense, licensees of such stations were not required to report FM station expense separately. As a result, FM industry totals for expense and income are not available. AM-FM licensees, however, were requested to report separately the revenues, if any, attributable to FM station operation.

FM Stations on the Air

Following is a list, by state, of commercial FM radio stations on the air in the U. S. and Puerto Rico. It does not include non-commercial or educational stations (for which see the Educational Station section) or CP's (construction permits). The number of FM stations in each state, and in the District of Columbia and Puerto Rico as well, follows the name of the state. Stations with stereo programming are identified by an *. Note: There are no FM stations in N. Dakota.

Civil Rights Breakthrough Ups Interest in Negro Newscasts

By
HARRY NOVIK
General Manager
WLIB, New York

HISTORY-in-the-making and broadcasting became closer associates last year. Civil rights, and the tragedy of November 22, took the medium far beyond the realm of an entertainment, educational or informative field. To the realization of the world, the industry became an indispensable part of modern communications.

In some instances, this awakening was even more apparent to Negro-oriented stations like our own WLIB in New York; for the stepped-up tempo of the civil rights movement brought the general broadcaster into an area he had never really explored before. The Negro-programmed station which had been servicing the Negro community suddenly had a formidable competitor in its own backyard.

The breakthrough undoubtedly began with the coverage of James Meredith's enrollment at the University of Mississippi. Suddenly, the Negro story was news of primary interest and concern to all Americans. Until this time, general broadcasters had handled Negro issues largely in a cursory manner. Usually the only presentation on Negro matters was in the form of "highlights."

To get a more detailed view on the events of the day related to himself, the Negro had to turn to Negro-oriented stations. It was here that the news was more than just ripped off the wire and read. The Negro-programmed station was the Negro's only source of "complete Negro news coverage."

Civil rights legislation, the March on Washington, and Birmingham changed all this. Coverage of these stories by general broadcasters was complete and thorough, surely a magnificent job. Man-on-the-street interviews were more than fair, and the wrap-up stories were handled with sensitivity and respect.

As a result of this coverage, there is no doubt in our mind that large numbers of the Negro populace now listen to and watch this type of general broadcast programming.

But for the thoughts and attitudes on Negro issues which the general broadcaster does not provide on a continuous basis, we find that the Negro community is now turning in even greater numbers than before to stations which program specifically to these needs, creating an even greater empathy between the Negro and the responsible Negro radio station than before.

This coverage also has resulted in the Negro's becoming a more knowledgeable and critical man. Negro leaders, too, have grown in stature and readily understand and seek broadcast time for the attainment of their goals. We have requests for "special time" more than ever before, and the Negro community is "tuning in" in greater numbers to hear the thinking of its leaders.

Today and in the years ahead, this is the responsibility of the Negro-programmed stations to their listeners: To provide their larger audiences with daily intelligent in-depth news coverage of Negro issues which the general broadcaster offers mainly during times of crisis. In addition, this daily news coverage should be supplemented with the interpretation and analysis which the Negro community can get nowhere else. To this end, stations like our own and other responsible facilities are increasing their staffs to meet the need.

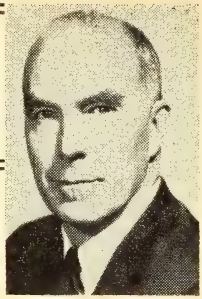
ETV Advances in '63 Presage 'Unprecedented' Future Growth



By
WILLIAM G. HARLEY
President
National Assn. of
Educational Broadcasters

NINETEEN sixty-three was the single most important year in the development of educational television for two important reasons: It was the culmination of years of effort to provide federal assistance programs for the development of educational TV facilities, and it marked the turn of the UHF tide (in which education has two-thirds of its reserved channels).

Through private initiative and public support nearly one-third of the channels originally reserved for educational purposes were operating by the end of 1963, and the weight of this evidence convinced federal legislators that educational TV was not primarily an entertainment medium for the educated, but an important and soon-to-be-integral part of the American educational enterprise. The authorization by the Congress of $32 million in matching funds for ETV facilities in several states will significantly speed the nationwide development of educational TV.

Nearly half the states in the Union now have active educational TV commissions seeking the financial support and facilities which will make it possible for millions of students at home and in school to receive educational materials previously unavailable to them. Over nine million persons interested in home correspondence study testify to the widespread interest which adults have in continuing education programs, and TV will contribute both to expanding this interest and to satisfying it. Some 30 million people are regular viewers of educational TV and this audience will continue to expand as more stations are added to the several dozen now in operation.

An action by the Congress related to the federal ETV assistance act is the "all-channel receiver legislation," which requires that TV receivers shipped in interstate commerce after April 30, 1964, must be capable of receiving both UHF and VHF channels. Because the majority of ETV reservations are located in the UHF band, many stations operating on these frequencies have had to limit their broadcasts to schools and other specialized receiving points because receivers were not widely available among the general public.

Although it will take five to six years before most homes are equipped with all-channel receivers, the fact that most receivers sold after April of this year must be able to receive UHF as well as VHF will make a significant improvement in general audience potential for educational TV.

A gift of $5 million from the Ford Foundation to the National Educational Television Center marks an important milestone for the improvement of ETV programming. Financial assistance from the U. S. Office of Education for development of instructional TV libraries is also an indication of the growing interest in TV for educational purposes.

In 1963 the National Association of Educational Broadcasters presented the FCC with a computer-based Assignment Table which provides more channel assignments, not only for education but for commercial growth as well. That table is now under consideration by the FCC.

With the impetus afforded the movement by the infusion matching funds and the requirement of all-channel receivers, the year 1964 has proved to be one of unprecedented growth and outreach for educational television.

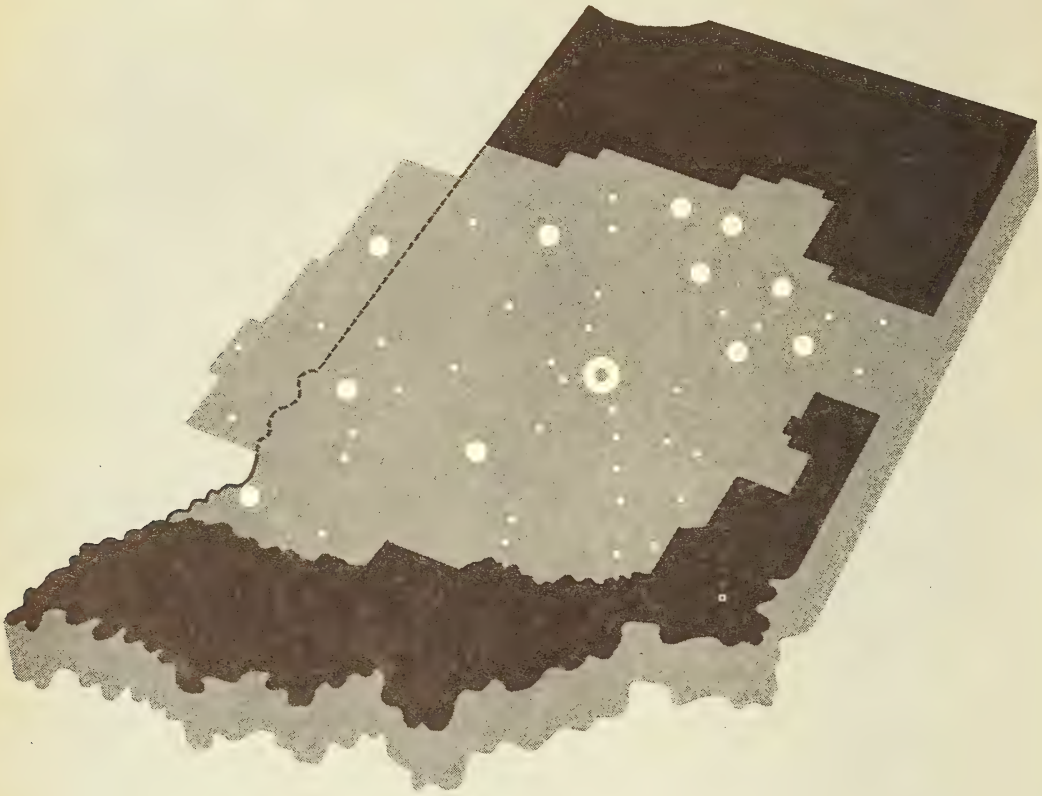
WFBM-TV...THE STATION THAT DOUBLES THE SIZE OF YOUR INDIANAPOLIS MARKET !!!



The perfect media-match for your product distribution in prosperous Mid-Indiana

WFBM-TV advertisers get surprising results, not only in the rich Indianapolis metropolitan and retail trading zones, but also in the 11 other important market centers that together provide even more spendable income and TV homes than the entire Indianapolis sales area.

WFBM-TV is the *only* station in Indianapolis with no overlapping penetration in this coverage area by basic affiliates of the same network. It provides the only basic NBC coverage of Mid-Indiana's 760,000 TV set owning families.

For *complete* coverage of Mid-Indiana's multiple markets use the facilities of WFBM-TV . . . the dominating sales force that reaches 50,000 more TV homes than any other local station!

AMERICA'S 13th TV MARKET

Indianapolis—Indiana's major wholesale and retail distribution center, with city and retail zone population of 1,215,000—379,000 homes with 90% TV ownership!

11 Satellite Markets—each within WFBM-TV's verified coverage: Marion • Anderson • Muncie • Lafayette • Peru • Logansport • Kokomo • Bloomington • Vincennes • Terre Haute • Danville, Illinois. (419,000 TV homes!)

WFBM-TV

The KCMO Quartet hits all the sales notes . . . loud and true!

Here's one act you'll want to book for sure—IF you want to fill the house (or stores) in Kansas City.

You get a bonus, too. It's KCMO's exclusive Feature Merchandising Service.

We'll be happy to give you the whole story on KC's star performers . . . anytime.

how do you fit a walrus into a water bucket?

You can! . . . if you're willing to settle for the tip of his flipper. Like ranking TV markets. You can take a small part of the market by using the metro approach . . . but if you want the whole walrus, you've got to rank by total market! Point! More than 80% of the Charlotte WBTV Market is located outside the metro area, and the Charlotte TV Market contains *550,000 TV homes . . . ranking 22nd in the nation . . . 1st in the Southeast!** Come on in . . . the water's fine. You'll flip over our walrus-size coverage area!

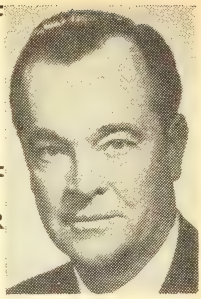
RAB 'College Plan' to Spur Student Interest in Radio



By
EDMUND C. BUNKER
President
Radio Advertising
Bureau, Inc.

RADIO Advertising Bureau will launch a number of exciting projects in 1964. Almost all of them will bring more immediate revenue into radio than the RAB "College Plan"; but the "College Plan," which we announced a few months ago, may well be the project that makes the greatest long-range impact on the industry. We've already received excited responses from educators all over the U. S., anxious to enroll in it.

RAB recognizes the need for highly motivated, sales-oriented young men and women in our industry. These people should be educated with tools that reflect radio as it is today. We believe the "College Plan" is a necessity, evolving out of the tremendous gains radio is certain to make over the next two decades.

Already there are more than 200 million sets, and 4,700 radio stations. In 10 years, as radio sets get even more compact and less expensive and the FCC continues to grant new licenses, radio will be even more personal, and the demands of the industry for new, trained young people will be at least twice what it is today.

As our industry grows in stations, in importance to advertisers and in the number and variety of advertisers, the need for trained sales personnel and sales administrators—a need already being felt on many levels—may one day be the single most serious radio problem.

RAB has offered its service to schools and universities at the cost of handling and shipping the material. We have made it possible for interested individuals, stations or station broadcast groups to sponsor memberships for individual schools.

Schools will get a weekly mailing of RAB sales materials. These will be, in effect, "a continuing textbook" on radio advertising for students and teachers. RAB's sales brochures and studies reflect the state of radio advertising today—both on a local and a national level. They will arm students with current research studies, case histories, and tapes of outstanding radio commercials.

In addition to the weekly mailing, we will also supply an extensive backlog of radio sales material, including a series of reports on other advertising media and their relation to radio.

RAB's member service department's main job is processing the hundreds of requests it gets every week from member stations and station representatives. But, in the normal course of things, the department also receives a number of letters from college students and their instructors. Unfortunately, most of these letters reveal a considerable lack of knowledge of radio, as it is currently being practiced across the nation. Based on some of the correspondence we receive, and some of the textbooks we have surveyed, one would think that radio announcers still delivered their commercials while dressed in double-breasted tuxedos, standing before carbon mikes.

We hope our "College Plan" will help bring the curriculum of many schools up to date, and get more intelligent, trained young people interested in making radio advertising a long-term career.

Advertisers' $ Investments Spell Continued TV Growth

By
NORMAN E. CASH
President
Television Bureau
of Advertising, Inc.

VETERAN television advertisers have learned through experience to make the medium work effectively and efficiently for themselves. Their experience, of course, helps the newer advertisers, and a major function of TvB is to assist in the transfer of this knowledge.

TV is a dynamic, ever-changing industry that keeps on giving new answers to old questions. These new answers continue because the various facets of the medium—audiences, programming, production and costs—keep changing, but in ways designed to keep TV the best buy for advertisers. As long as advertisers contribute the support for TV to grow, the medium itself can go on with the job of communicating daily to almost nine out of 10 Americans.

The importance of advertisers growing with the medium—and there is abundant evidence that their own company growth levels off with less TV—is greater now than ever. Technology has created not only the means but the necessity for instant communication of sight and sound among the world's video systems. The tragic event of the assassination of President John F. Kennedy became a matter of personal concern within a few hours to viewers in London, Berlin, Tokyo and Moscow.

TV offered new insight to the peoples of the world with the way Americans react in a period of deep stress. This sad event cannot and should not be the only opportunity to show ourselves in far-off places. Foreign and American viewers will no longer be satisfied with less than immediate exposure to major world events.

Pressed by surging viewer demands, electronic engineers and TV technicians will be working with renewed energies to speed the facilities between nations. The communications satellites Relay and Telstar are the real pioneers of global TV. These are beginnings, however, and only hint at the possibilities for future international program exchange.

Commercial support and the public's investment in TV together have set the pace for video's fantastic growth rate. This fact remains vital in the moment of achievement exemplified by the medium's four-day public-service reporting in November, 1963. The credit for this unprecedented coverage, which was accompanied by viewing levels that rose to as high as 93% of TV homes in some areas, goes to the advertisers whose investments through the years have raised TV's capabilities to new heights.

The outlook for the future growth of TV is promising, if judged by our predictions for the growth in advertising dollars. Investments in the medium during the 1960's will grow twice as fast as investments in all advertising media, according to our estimates. TV budgets will increase 100%, while total ad budgets will rise only 50%.

TV's increased revenues will result from (1) more TV homes; (2) greater value (spending power) of all families, and (3) larger audiences because of higher viewing levels.

TV is on the threshold of a new era in mass communications. With continuing advertiser support, TV viewers can expect new dimensions in informational and entertainment programming.

PULL UP A CHAIR

MAKE YOURSELF COMFORTABLE WITH JUST THE RIGHT PROPERTY FROM ABC FILMS. Some stations need a laugh – like Dickens & Fenster... maybe yours needs adventure, (Expedition!), or a top flight western, (Wyatt Earp, The Rebel). Or the gentle touch of Casper, the Ghost. Whatever... from

evening escape (One Step Beyond), to a jolt of daytime reality, (like Girl Talk), ABC Films has just the show; and each a top-rated one at that, with proven big audience pull. Each of these great shows... and more, are now available for local stations. Powerful programming is as easy as ABC. FILMS, INC.

ABC FILMS, INC., 1501 BROADWAY, N.Y. 10036 — LA 4-5050/360 N. MICHIGAN AVE., CHICAGO, ILL. — AN 3-0800/190 N. CANON DRIVE, BEVERLY HILLS, CALIF. — NO 3-3311

"U S A — 1,000"

A program service kit containing one thousand motion picture features from one to four minutes in length; covering every significant person and event of the twentieth century. Cross-indexed and catalogued, every feature is researched and accompanied by full information sheets. The living story of the United States and its exciting people is at your finger-tips.

"U S A - 1,000 will open up new vistas in the planning and production of local programs, especially in the areas of documentaries and specials."

Everyone is Playing Robin Hood

Every day in the week–

and here's what happens!

BRISTOL-JOHNSON CITY, M.F. 5:00 PM—**61%** SHARE
PITTSBURGH, M.F. 8:00 AM—**38%** SHARE
SYRACUSE, N.Y. FRI. 7:00 PM—**34.5%** SHARE

Four years of peak network success . . . universal parental acclaim...unmatched response for sponsor promotions...these are just a few of the reasons why Robin Hood offers unsurpassed strip programming. Add to these proven assets an enthusiastic audience that not only watches the program loyally but makes it a part of its playtime...an audience that draws additional recruits each year as a new generation discovers television-you can see why Robin Hood is unrivalled for station and sponsor.

Produced by Sapphire Films, Ltd.

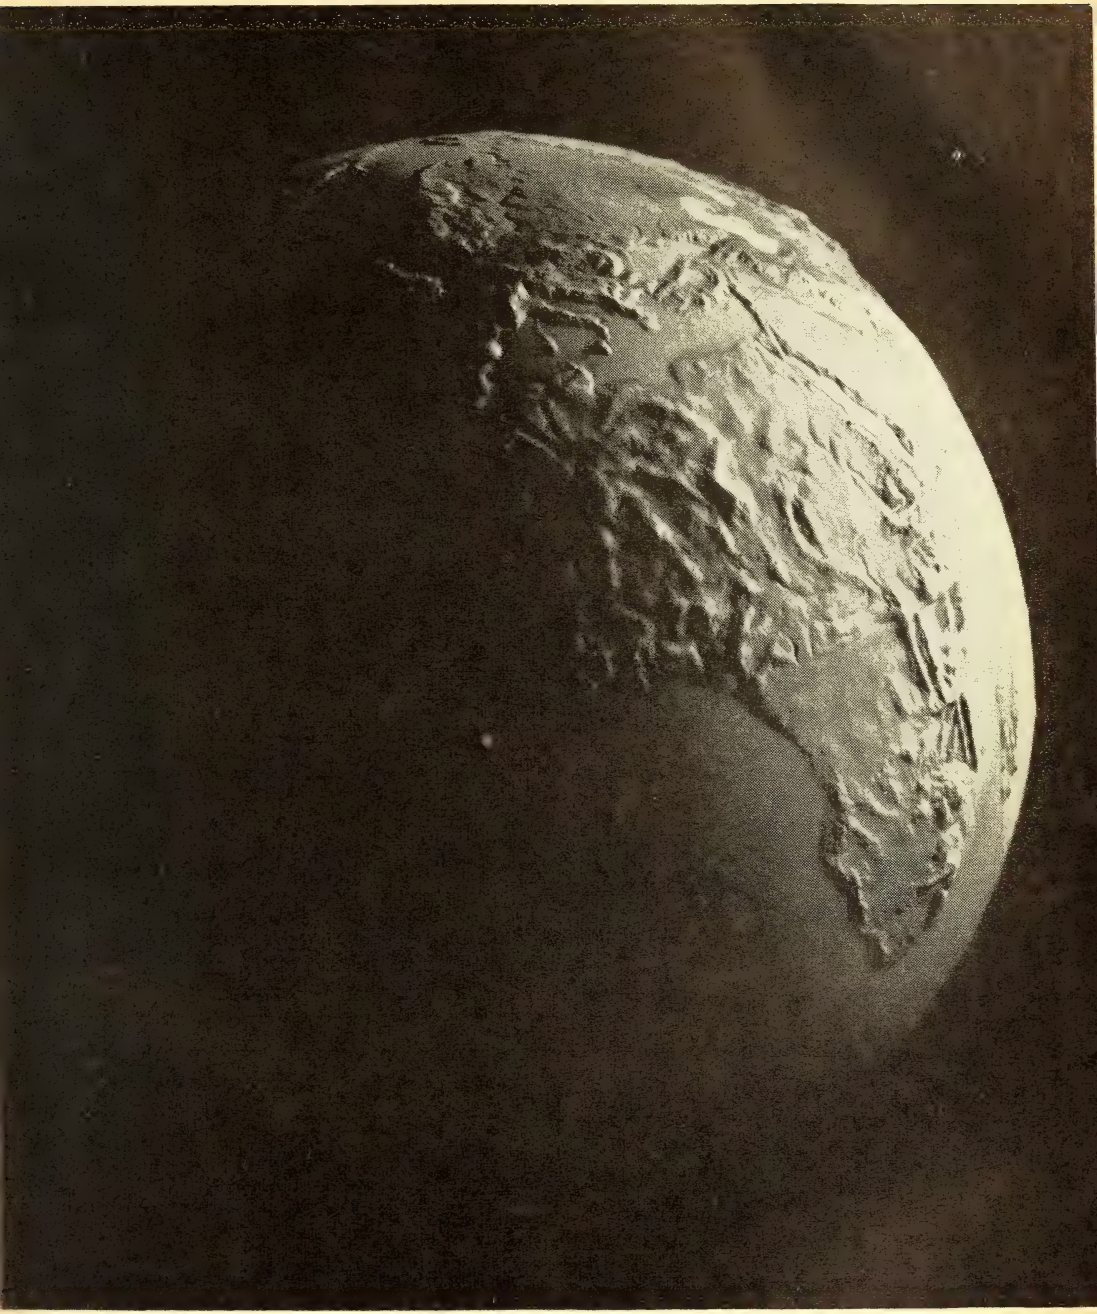
How to tell all sides of this story in '64...



News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

ASCAP

By
STANLEY ADAMS
President

THE year 1964 will mark the 50th anniversary of the American Society of Composers, Authors and Publishers, the performing-right organization which was founded in 1914 by the late Victor Herbert and a group of his colleagues. The Society functions as a clearing house for the performing rights of the creators of music and their publishers.

The performing right is granted by the United States Government under the Federal Copyright Law. This right entitles composers, authors and publishers of musical compositions to payment for their works whenever they are performed publicly for profit. Through ASCAP, any user of music may obtain from a single source the right to perform the works of more than 7,000 writers and 2,000 publishers who are members of the Society, at a minimum expense and without the necessity of negotiating for each separate use.

ASCAP's extensive repertory covers all phases of the American music literature. In addition to the best-loved popular and show music, it includes the finest country and western music, church and sacred selections, and a catalog of much of our contemporary classical music—symphonic, chamber and choral works and recital selections.

Radio and television broadcasters have access to this entire repertory when they obtain an ASCAP license. This license guarantees them a clearance on all ASCAP composers' and publishers' music; at the same time it provides for the writers a sustained livelihood from the works of their own creation, and a means of enabling publishers to invest in the exploitation of new works.

The Society's Board of Directors consists of 12 writer and 12 publisher members elected biennially by the writer and publisher memberships, respectively. Its officers are elected annually. It maintains 23 branch offices in major cities throughout the country. Headquarters are located at 575 Madison Avenue, New York, N. Y. 10022.

Broadcast Music, Inc.

THE United States copyright law provides that the authors and publishers of music have the right to be compensated when their music is performed publicly for profit. This right also exists under the laws of every major country of the world.

Broadcast Music, Inc. — BMI — was created in 1940. Its sole purpose is to serve as an organization which would acquire and license performing rights and, in so doing, bring about healthy and necessary competition. BMI was organized by a group of broadcasters who neither collect dividends nor receive special rates from it.

BMI acquires performing rights from independent writers and publishers, collects license fees from the organizations which perform music for profit and, in turn, makes payment to the creators of the music. It licenses the music of composers and publishers who are resident in every one of the United States. Through agreements with performing rights societies in other countries, it brings foreign music to America and makes American music available throughout the world.

BMI does not publish or record music. The rights to do so belong exclusively to the composers and publishers.

Except for operating expenses and a reasonable reserve, BMI pays all of the money it collects to the composers and publishers whose music is performed. The organization determines payment to composers and publishers on the basis of the performance of music on thousands of independent stations as well as on country-wide networks. It does so because the performance of music on radio and television represents the truest gauge of public demand for music of all types and the broadest use of music to meet that demand.

The past year marked BMI's 23rd year of service. It was a year that saw the number of our affiliated authors, composers and publishers and the compositions we license at an all-time high.

For the future, BMI looks forward to serving many thousands more of the creators of music and many more of the businesses which use music as part of their service to the public. It will continue to deal justly and fairly with those enterprises which enable that music to be heard. It will continue to maintain its open-door policy for the benefit of all persons who wish to gain the public ear and be rewarded if their works win favor. It will continue to serve the public by making music from every part of our country and from all quarters of the world available for public performance.

ONLY *RADIO-TELEVISION DAILY*

ASSURES YOU OF REACHING THE DECISION-MAKERS

IN A CLIMATE OF IMMEDIACY

AND WITH EXTRAORDINARY VISIBILITY.

SESAC, Inc.

By
PAUL HEINECKE
President

THIS year SESAC marks its 33rd anniversary of service to the music user, and we find that each of these 33 years has been an eventful one. The music industry has kept pace with the ever-changing needs of an era in which every day has brought startling revelations about new ways of life. Our music needs have been altered accordingly. New rhythms have arisen to match the heartbeats of this pulsating world of music lovers. We saw the Charleston, the Big Apple, the Turkey Trot, the Waltz, the Fox Trot, the Rhumba, the Tango and dozens of others become the craze and then most of them slowly fade from the scene. Today there is the Twist, the Mashed Potato, the Bossa Nova — and who knows what tomorrow will bring?

Of one thing we can be certain: Tomorrow's musical tastes, like those of the past, will be predominantly influenced by the radio industry, probably the leading source of music exposure in the world today. Radio, more than any other medium, will continue to be the most influential factor in establishing music trends and developing individual and collective music preferences in almost every corner of the globe.

Because of this important influence the broadcasting industry has found that creativity is essential to survival. The days of the radio "juke box" station operation are rapidly disappearing, and today more than ever before the creative station is gaining prominence and wider audience acceptance.

SESAC copyrighted selections are found in abundance on countless commercial recordings by leading artists on all the major record labels. In addition, SESAC RECORDINGS LPs are currently in use in close to 50% of all the stations in the United States alone.

Each SESAC RECORDINGS LP contains music from the vast and widely diversified SESAC copyrighted repertory. Our gratis distribution of "repertory recordings" to radio and television facilities throughout the world was greatly increased during 1963. To date, nearly a million of these 45 RPM EPs have been distributed and we shall further expand the service during 1964. Our publisher affiliates, too, have kept pace with the month-to-month trends and the increasingly discriminating tastes of their users.

During 1963, SESAC also was instrumental in the first recording of a major American symphonic work, William Dawson's "Negro Folk Symphony," which was recorded by Leopold Stokowski and the American Symphony Orchestra and released by Decca. At the close of the year, the New York Philharmonic, under George Szell, gave the first U. S. performance of Baird's "Four Essays," an important Polish contemporary work under our representation.

SESAC also met the high-cost creative jingle problem of the broadcaster with the "DRUMMERS," a low-cost service created and produced by people with radio know-how and designed to provide even the smallest broadcasting facility with material that can easily be tailored and customized to the individual station's needs.

We are happy to do our part to assist broadcasters in their never-ending search for creative programming that is different and, above all, appealing. We salute the broadcasting industry for its giant strides in creative programming during 1963, and feel certain that this is but a small beginning for an even greater tomorrow.

ASCAP'S 50th Anniversary

The Music of America 1914-1964

1964 marks the 50th Anniversary of the founding of the American Society of Composers, Authors and Publishers.

Organized in 1914 by Victor Herbert and his colleagues, ASCAP has always been an unincorporated, non-profit, membership association which today numbers more than 9,000 outstanding men and women who write and publish our nation's musical works.

Members of ASCAP represent every phase of musical literature: the popular songs of today, the standards of yesterday, the Broadway and motion picture hits, the finest symphonic, concert and religious works, jazz, folk, country and band music.

The Society serves the American public by encouraging musically creative talent. It also serves the public by making it possible for every user of copyrighted music to obtain, quickly and reasonably, the right to perform that music publicly for profit through a single ASCAP license.

The American Society of Composers, Authors and Publishers

How to tell all sides of this story in '64...

News frequently has a way of happening when and where you least expect it. The question is, how to be everywhere at once. The answer is AP. No matter what it is or where it breaks, you know you'll get it fast, accurate and with complete objectivity when you take it from AP.

From Muleshoe to Moscow—from local weather to world news—every AP member boasts the world's biggest, best qualified news staff.

Since 1848, this AP quality story has never changed. It just keeps growing stronger and stronger with every new AP member—including over 2500 radio and television stations who won't settle for less than best.

AP

THE ASSOCIATED PRESS

COUNTRY MUSIC NETWORK

America's Original and Station

The JOHNNY CASH Show

America's most consistent record seller. The most moving personality of our day, in a 5 minute program that literally "comes to life" on anyone's radio. First time ever offered.

The ARTHUR SMITH Show

The South's No. 1 Salesman and his cast provide a sparkling program with Town and Country appeal. Years with CBS — Food Products Specialists — Introduced Procter & Gamble's New Blue Cheer.

FLATT and SCRUGGS

Lester Flatt and Earl Scruggs have been rightly acclaimed leaders in the Country and Western music field. They are heard every week on The Beverly Hillbillies TV program.

These top names also on 5 minutes of Top Radio . . .

- THE JAMES BROWN SHOW
- THE LESTER LANIN SHOW
- MERRIMAN SMITH
- THE STATESMEN and BLACKWOOD BROTHERS QUARTETS
- GEORGE BEVERLY SHEA'S HYMN TIME
- JOE EMERSON'S "A WORD & A SONG"
- ARTHUR SMITH'S "A HIT & A HINT"

Plus Many Others . . . also custom-made Jingles, Commercials, etc.

The Nation's Largest Producer of Radio Shows

ARTHUR SMITH STUDIOS

BOX 17551 • CHARLOTTE, N. C.

PHONE AREA CODE 704 536-0424

HAL HARRILL, Gen. Mgr.
